Honolulu, Hawai'i 96813

The University of Hawai'i is an Equal Opportunity/Affirmative Action Institution. For questions or disability accommodations, call Brenda Wong, (808) 586-2904

**About this Conference**

The Hawai'i Addictions Conference is designed for physicians of all specialties. It also provides topics of interest to psychologists, CSAC and other treatment counselors, nurses, and social workers. The purpose of this year's conference is to focus on medical comorbidities associated with addictive disorders, their recognition and consequences to treatment. It will provide physicians, community practitioners, and providers of integrated care an opportunity to exchange observations and knowledge, based on their discipline or specialty, and clinical experience.

Individual presentation learning objectives are noted below each speaker's name. Overall Conference Learning Objectives include being able to: 1) Identify common medical comorbidities presented by patients with a history of addictive disorders and/or active substance abuse; and 2) Discuss appropriate tertiary treatment modalities, and referrals for medical comorbidities of addiction.

Educational method: lecture, audience discussion.

**Continuing Medical Education**

The Hawai'i Consortium for Continuing Medical Education (HCCME) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The HCCME designates this educational activity for a maximum of 5.0 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

**Evaluation and Attendance**

Evaluation of the conference will be achieved by participant evaluation feedback form. Attendance will be documented by a sign in sheet and submission of a completed evaluation form.

Certificates of attendance will be provided on request to psychologists, nurses, social workers, counselors, and other non-physicians.

**University of Hawai'i**

## **Featured Speakers and Presentations**

**Daniel Fischberg, M.D., Ph.D.** is the Medical Director of the Pain and Palliative Care Department, Queen's Medical Center.

**8:00 AM Title: *Walk the line: Pain management in the addicted and those at risk.***

Learning objectives: 1) Define and distinguish between tolerance, dependence, and addiction; 2) List three risk factors for, and a differential diagnosis of problematic opioid use; and 3) Select clinical strategies that optimize pain management, for patients with a substance use disorder and those at risk.

**Nancy Withers, M.D., Ph.D.** is the Director of Medical Education, Veteran's Administration Clinic, Spark Matsunaga Veteran's Administration Center; and an Associate Clinical Professor of Psychiatry, University of Hawai'i John A. Burns School of Medicine.

**9:00 AM Title: *Hepatitis C.***

Learning objectives: 1) Describe the epidemiologic relationship between drug use and Hepatitis C treatment; 2) Identify two exclusion criteria for Hepatitis C treatment in the addicted population, and their justification; and 3) Describe adverse interactive effects of medication for Hepatitis C with two common addictions.

**9:30 AM Break**

**Wayne B. Batzer, M.D., FACAP** is an adolescent child psychiatrist, Associate Clinical Professor of Psychiatry, University of Hawai'i John A. Burns School of Medicine, and the former Chief of Chemical Addiction Treatment Services at the Tripler Army Medical Center.

**9:45 AM Title: *Prevention.***

Learning objectives: 1) Describe what does, and does not, work effectively in teen substance abuse prevention programs; 2) Identify two child and adolescent disorders that may result in substance abuse; and 3) Explain changes in clinical practice that aid in the prevention of teen substance abuse.

**Ronald Moruzzi, D.O., LTC** is an Addiction Psychiatry Level V Resident, University of Hawai'i John A. Burns School of Medicine; and Lieutenant Colonel, Medical Corps, U.S. Army. Member of Conference planning committee.

**10:15 AM Title: *Adolescent Substance Usage and Psychiatric Comorbidity.***

Learning objectives: 1) Cite the current rates of underage usage for the most commonly used substances; 2) Identify three of the common co-occurring psychiatric illnesses for these substances in the adolescent population; and 3) Draw two practical implications for therapy of substance use co-morbidity, in this population.

**Mark Greer, D.M.D., M.P.H.** is Chief of the Dental Health Division, Hawai'i State Department of Health.

**10:45 AM Title: *Oral Health Complications of Substance Abuse.***

Learning objectives: 1) Identify three risk factors for oral disease; 2) Describe two correlations of various forms of substance abuse with oral health; and 3) Explain two strategies to minimize the impact of addiction on oral health.

**Jennifer Farrell, M.D.** is an Addiction Psychiatry Level V Resident, University of Hawai'i John A. Burns School of Medicine. Member of Conference planning committee.

**11:15 AM Title: *Addiction During Pregnancy.***

Learning objectives: 1) Identify two strategies for management of opioid dependency in the pregnant patient; 2) Describe two strategies for management of nicotine dependency in the pregnant patient; and 3) State the known effects on fertility of opioids and nicotine.

**11:45-1:00 PM Lunch**

**Paula Colescott, M.D.** is an Addiction Psychiatry Level V Resident, University of Hawai'i John A. Burns School of Medicine. Member of Conference planning committee.

**1:00 PM Title: *Addiction in the Emergency Room.***

Learning Objectives: 1). Identify and treat three drug-related disorders commonly seen in the ED; and 2) Describe physical findings, typical lab findings, and any treatments in three common alcohol-related conditions.

**William Haning, III, M.D., FASAM** is an Associate Professor of Psychiatry, Director of Graduate Affairs for the medical school, and Program Director of Addiction Psychiatry/Addiction Medicine Fellowship Program, University of Hawai'i John A. Burns School of Medicine. Conference Course Director.

**1:30 PM Title: *Emergency Medicine: Cardiac Consequences of Amphetamine Use.***

Learning Objectives: 1) Describe two bases for special cardiologic concern in methamphetamine dependent patients; and 2) Explain one possible remediable obstacle to the successful resuscitation of the methamphetamine dependent patient in arrest.

**Gilbert Ikehara, M.S.C.P.** is Clinic Coordinator, OHANA Clinic, Healthcare for the Homeless Project.

**2:00 PM Title: *Trauma in the Emergency Room.***

Learning Objectives: 1) Explain the background and development of SBIRT; and 2) Describe the clinical usage and future application of SBIRT in the delivery of trauma unit services for patients under the influence of drugs or alcohol.

## **Parking**

Metered parking is available in the surrounding area, and parking is \$6/day at the Neal Blaisdell Center. *Parking validation for conference attendees is NOT available.*
